The House began voting on the Original Package" bill as soon as the reading of the journal had been concluded. The first vote was on Mr. Adams' substitute, defining original packages, which was rejected—yeas 33,

nays 113.

The House then took a vote on the House substitute for the Schate bill, which provides that whenever any article of commerce is imported into any State from any other State, Territory or foreign nation, and there held or offered for sale, it shall be subject to the laws of that State, provided that no discrimination shall be made by any State in favor of the citizens of that State against the citizens of any other State; nor shall the transportation of commerce through any State be ob-structed except in the necessary en-forcement of the health laws of that

As the vote proceeded it appeared that the result was in doubt, and there was great excitement. At the end of the first call there was an affirmative majority of one. At the end of the second call the majority was the same, but a number of members changed their votes, and the vote as announced was:

Yesa, 109, nays, 94.

Mr. Grosvenor of Ohlo, who had changed his vote for the purpose, moved a reconsideration.

Mr. Frank of Missouri moved to table the motion, and this was done. A vote was then taken on the passage of the

bill as amended.

The Raum Matter-

Mr. Cooper of Indiana says he has heard nothing since the meeting of the Committee on Rules last week to indicate what that peculiar and powerful committee thinks is going to do with his Raum resolution.

CONTESTED ELECTION CASES. REASON FOR THE DELAY IN THE

LARGSTON AND MILLER CASES. The long delay and numerous postcomments in the consideration of the contested election cases of Langston vs. Venable, from the Fourth Virginia district, and Miller vs. Elliott, from the Seventh South Carolina district, have caused much speculation as to the cause therefor. It is reported to day that the real reason the Committee on Rules has refrained from naming a day for the consideration of these cases and the Elections Comthese cases and the Elections Committee from insisting upon its right of way over everything, is that Langston and Miller are both opposed to the Force bill. If the votes of these districts were to be cast against that bill the leaders preferred it be done by the Democratic sitting members. They didn't care to seat men whose first act would be to revolt against a leading nearly measure. against a leading party measure.

Apparently the danger is now re-

garded as past, as the Committee on Elections is now talking of getting these cases before the Honse this week. cases before the Honse this week. The committee expects to call up first the case of Chaimers vs. Morgan from the Second Mississippi district. The committee is unanimous in favor of the sitting member, though there are two reports. The majority reduces Morgan's majority over Chaimers from about 8,000 to about 4,000, but is unable to wipe it out altogether. The minority thinks Morgan entitled to the entire 8,000. The disposition of this case will 8,000. The disposition of this case will require but a short time. Then the committee expects to take up the Virginia and South Carolina cases in succession and dispose of them. cession, and dispose of them, i. e., seat

the contestants.

Two other cases, McGinnis vs. Alderson from the Third West Virginia district and Goodrich vs. Bullock from the Second Florida flistrict, which were decided in the committee last week, and yet to be acted on by the House. The reports in these two cases have been prepared and are ready to be submitted the committee when it meets next

APPROPRIATION BILLS.

THREE OF THEM LEFT TO BE ACTED ON-THEN THE TARILY GALORE. There are three of the regular appropriation bills yet awaiting final action, the Indian, the River and Harbor and the General Deficiency.

The Indian bill will doubtless lead to general debate, there being serious discontent displayed by some Senators in regard to the administration of the Indian Commissioner, in relation to de-nominational schools among the In-dians. The debate will probably last for two or three days.

The River and Harbor bill is one in which nearly every Senator has an indi-vidual interest, and as most of them haven't got all they want they will strive for more. This will delay the passage of the bill for several days; this on the assumption that the Senate will pass it. It is well known that the House, having passed the bill before the warning of an impending deficiency was sent out by Senstor Allison, now washes its hands of all responsibility in the matter and throws the entire burden upon the

The General Deficiency bill will not occupy much time. It is noteworthy in carrying \$5,000,000, \$2,000,000 in excess of the amount estimated by Senator Allison in computing the regular appropriation bills last week, when he ade the aggregate \$350,000,000.

These three measures out of the way, the Tariff bill will be considered con-tinuously. The members of the Finance Committee expect it will occupy ten days or two weeks after that, unless the Republicans should determine to reply to the bombardment of the Democrata. In that case he would be a very rash man who would undertake to predict when the debate would cod.

Seceding Friends of Zion Enjained. During the final review of the Grena dier Guards yesterday by the commamler in chief, there were many scenes of disorder among the men. Those who had received sentence of punishment for their mutinous conduct were especially recalcitrant. They plucked from their breasts the medals won in the Egyptian campaign and threw them across the parade ground. Many military men criticise the authori-ties severely for parading the men at all, they argue that they should not have their temper, but should have been given an opportunity to exhibit their temper, but should have been packed out of the country as quiety and ignominiously as possible.

They expect to sail August 6. The sudden rise in the price of silver has caused all the financial writers on

the London press to sharpen their pen-cils and put their deepest thinking caps on in the hope of enlightening the world as to the cause and effect of this world as to the cause and effect of this silieration in the railo between the two precious metals. The expert of the Morning Post, who enjoys the distinction of being perhaps the heaviest writer on the subject, pronounces the obiter dictum that the fluctuation in prices is but a passing cloud; that the effect of the American Silver bill will be wholly transitory and that there will be very little of the effect even while it

Too Fond of French Literature, Conly R. Jones, a Washington book worm with a penchant for French novels, has got himself into trouble. His means would not permit of his indulging very extensively in French literature, and it is alleged that he has from time to time, while examining publications at the book stores, secreted one or two volumes under his cost and esaped with them. For some time the lerks at Brentano's have been missing books, and they have been on the alert to find out who the thief was.
